

## Brief CV

<b>Name</b>	Yan Wang	中文名	王艳	
<b>Gender</b>	Female	<b>Title</b> (Pro./Dr.)	Pro.	
<b>Position</b> (President...)	no	<b>Country</b>	China	
<b>University/ Department</b>	Shenyang Normal University, College of Chemistry and Chemical Engineering			
<b>Personal Website</b>	no			
<b>Research Area</b>	Fuel cell and hydrogen energy; Material science and engineering			
<b>Brief introduction of your research experience:</b>				
<p>My research field is about “Fuel cell and hydrogen energy” and “Material science and engineering”. My previous work mainly involves three aspects:</p> <ul style="list-style-type: none"> <li>(i) The preparation of nanostructural catalysts with high catalytic activity.</li> <li>(ii) Hydrogen controlled generated by hydrogen storage materials.</li> <li>(iii) The catalytic mechanism of the catalytic reaction of small molecular on the transition metal surface.</li> </ul> <p>In recent few years, I have hosted 11 research projects, including national, station as well as university researches and published relative 25 papers indexed in SCI/El.</p>
